Re: Price Increase Notification– 1st August 2026

Dear Myles,

Firstly, I hope you are keeping well.

As you will no doubt be aware, the market has seen significant inflationary increases. Over recent months we have absorbed well published increases in energy, ongoing labour costs, and more recent raw material uplifts.

We have resisted reacting immediately, however prices are continuing to increase and unfortunately, we are left with no alternative but to implement a price increase across our product range.

I wish to formally notify you of an average 11% price increase on our current published list price, effective 1st August 2026. All orders delivered from Monday 3rd August will be invoiced at the new August 2026 price file.

In line with the above change in pricing, we will also be raising the minimum order for carriage paid deliveries accordingly.

2 Months Notice Period
Please accept this notification dated 28th May 202628th May 2026, as two months formal notification, with the price increase effective 1st August 2026.

In line with the above change in pricing, we will also be raising the minimum order for carriage paid deliveries to £1,650.

I would ask you please to keep your ordering patterns at normal levels. We reserve the right to limit acceptance of unusually high orders being placed ahead of the implementation date, so that we can manage the allocation of material.

Please be assured we have endeavored to mitigate this price increase as much as possible, so that your excellent competitive positions in our market will remain. We will continually monitor the volatility trends in price and material availability through the next few months and communicate any further changes immediately.

Finally, I would like to take this opportunity to thank you for your valued custom and support.

Chris Hemmington-Green
Sales Director
